

Geetha Krishna Venkatesh Maroju

PYTHON DEVELOPER

PROFILE

Python Developer with hands-on experience building backend applications, REST APIs, and cloud-native solutions on Microsoft Azure. Skilled in FastAPI, Flask, and Python automation with practical exposure to Azure App Service, Cosmos DB, Blob Storage, and Azure OpenAI. Passionate about building scalable, AI-integrated applications.

TECHNICAL SKILLS

- **Programming & Core Skills:** Python (Core Python, OOP, Data Structures, Algorithms), SQL, REST APIs, FastAPI, Flask, Git & GitHub
- **Python Libraries & Frameworks:** NumPy, Pandas, Scikit-learn, TensorFlow, Keras, OpenCV, Streamlit
- **Cloud & Backend :** Microsoft Azure (App Service, Cosmos DB, Blob Storage, Azure Functions, Azure OpenAI), FastAPI, Flask, REST APIs, MySQL.
- **Tools & Platforms:** VS Code, Postman, Jupyter Notebook, Linux, Git

PROJECTS

➤ AI RESUME SCREENER API

TECHNICAL SKILLS INVOLVED: [FASTAPI](#), [AZURE OPEN AI](#), [AZURE BLOB STORAGE](#), [PYTHON](#), [RESTAPI](#)

- Built a REST API using FastAPI and Azure OpenAI that analyses resumes against job descriptions, returning match scores and skill gap analysis.
- Deployed on Azure App Service with resume files stored in Azure Blob Storage.

➤ WEATHER APP

TECHNICAL SKILLS INVOLVED: [PYTHON](#), [FLASK](#), [AZURE COSMOS DB](#), [AZURE APP SERVICE](#), [RESTAPI](#)

- Developed a Flask web app fetching live weather data via REST API, storing search history in Azure Cosmos DB.
- Deployed on Azure App Service with sub-200ms API response time.

➤ FAKE NEWS DETECTION

TECHNICAL SKILLS INVOLVED: [PYTHON](#), [TENSORFLOW](#), [BERT](#), [LSTM](#), [NLP](#), [SHAP](#), [LIME](#)

- Built an NLP text classification app using BERT, LSTM and GRU models with SHAP/LIME explainability, achieving 92% classification accuracy.
- Integrated model into a Python application with modular preprocessing pipeline.

➤ TOUCHLESS VIRTUAL MOUSE

TECHNICAL SKILLS INVOLVED: [PYTHON](#), [OPENCV](#), [MEDIAPIPE](#)

- Built a gesture-controlled virtual mouse using Python and computer vision pipelines with OpenCV and MediaPipe.
- Implemented real-time hand gesture detection achieving smooth cursor control with optimized frame processing.

➤ ADDITIONAL PROJECTS AVAILABLE ON GITHUB:

INTERNSHIP EXPERIENCE

➤ PYTHON DEVELOPER INTERN – TARCIN ROBOTICS

AUG 2025 – PRESENT | REMOTE

- Built automated Python data pipelines processing structured datasets using Pandas and NumPy, reducing manual effort significantly.
- Developed backend logic for dashboards and data-driven applications using modular, Git-managed Python code.

➤ PYTHON / DATA ANALYTICS INTERN – AICTE RECOGNIZED

JUL 2024 – DEC 2024 | REMOTE

- Developed Python programs for data extraction and analysis using SQL datasets, implementing reusable functions and clean code practices.

➤ PYTHON & MACHINE LEARNING INTERN – YBI FOUNDATIONS

MAR 2024 – JUL 2024 | REMOTE

- Implemented machine learning algorithms using Python and Scikit-learn, following object-oriented programming principles
- Built Python pipelines for model training, testing, evaluation, and integration into applications

CERTIFICATIONS

- **PCAP** – Certified Associate in Python Programming
CertifyCore Inc., Lifetime Validity (2025)
- **HackerRank** – Python (Basic), SQL (Easy, Medium)
- **AZ-900 Azure Fundamentals** – In Progress (2026)
-  **GitHub:** github.com/MGK-VENKATESH

VIEW MORE CERTIFICATIONS: 

EDUCATION

- **Jawaharlal Nehru Technological University, Kakinada**
B.Tech in Computer Science and Engineering (2021–2025)
- **Blekinge Institute of Technology, Sweden (2024–2025)**
International Coursework – AI & Data Science
Completed advanced coursework in Artificial Intelligence and Data Science with international exposure

OTHERS

- **Languages:** English (Professional), Telugu (Native), Hindi (Conversational)
